REPORT OF THE VICTORIA HOSPITAL FOR CASTE AND GOSHA WOMEN.

Attendance of patients.

The following table shows the number of patients treated for the past ten years :—

1904	2,046	16,082	63·80	120·30

This table shows an aggregate of 18,128 patients treated as compared with 17,270 during the previous year. We have much pleasure in noting the increasing popularity of the hospital. No pressure or inducement is now needed; patients come of their own free will, seeking admission into the hospital, in fact during certain seasons of the year, it becomes necessary, from want of accommodation, to refuse admission to patients and they are advised to go to other hospitals. The influx of mofussil patients is high as usual.

Maternity cases.

The following table shows the number treated during the past ten years and their classification. It is very satisfactory to find that there is a steady increase in the maternity every year. We are also pleased to state that several of the better class come into hospital for their confinements. We have had no less than 33 Brahmin and the more respectable Hindu cases. There is no doubt that the new delivery ward, the gift of Lady Bashyam Iyengar, will prove a special attraction, as the accommodation and sanitary conditions are far superior to those of the old delivery ward.

Fifteen cases after delivery were sent to the septic ward—

(1) One case was brought from Tanjore in a septic condition.

(2) Seven cases were suffering from diarrhoea and dysentery.

(3) The rest were removed to the wards in a septic condition.

Accommodation.

The total number of beds in the hospital is 70. The septic wards prove a great boon to the hospital. We have had much less trouble with the labour ward cases during the past year, as cases found septic are immediately removed to be treated in the new septic wards. One hundred and seventy-two cases were treated during the year. The special wards, especially those situated upstairs, seem to be much appreciated by patients of the better class. The new operation room has been fitted up and equipped with many new instruments and appliances. What is now needed is a good operation table.

Visitors.

The ladies on the Visiting Committee continue to be of much help, and by their regular weekly visits, they have been the means of keeping up a general interest in the institution and, in communication with the Superintendent, keeping the Honorary Secretary and Committee more in touch with the interior economy and general working of the institution. The Visiting Committee consisted of Mrs. Benson, Mrs. Twigg, Mrs. Maldon, Mrs. Maitland, Mrs. Firth and Mrs.

Narayanaswami Chetty. Surgeon-General B. Franklin visited the hospital on February 16th. Remarks—

"I visited the hospital to-day with Major Molesworth, I.M.S., and was shown over the wards by Mrs. Winckler-King, the lady doctor in charge. I was much pleased with all I saw, nearly all the beds were occupied and much good and useful work appears to be done here. The cleanliness and general appearance of comfort about this well-ordered institution was most satisfactory to see."

His Excellency Lord Ampthill visited the hospital on March 1st. Remarks—

"Lady Ampthill took me round the hospital this afternoon in company with Mrs. Winckler-King and Major Molesworth. I saw everything, except the Gosha wards, and was much struck by the brightness and good order. The new operation and dressing rooms are a great improvement and seem to be well fitted for their purpose. A new labour ward seems to be the present chief need of the hospital. I was glad to see such clear evidence of the popularity of the institution and the able management of Mrs. Winckler-King."

Temporarily supported beds.

During the year eight beds were supported by the following ladies and gentlemen:—

	No. of beds supported.
His Excellency Lord Ampthill, G.C.I.E., G.C.S.I. ..	1
Her Excellency Lady Ampthill, C.I.	1
Nawab Rahmat-un-nisa Begam Sahiba	1
Nawab Khurshid-un-nisa Begam Sahiba	1
Muhammad Mahmud Khan Bahadur	1
M.R.Ry. G. Narayanasami Chetti Garu	1
Lady White	1
M.R.Ry. B. Hanumantha Row Avargal	1
M.R.Ry. H. Bhimasena Row Avargal	1

These beds are only *temporarily* supported, and we cannot, when making our budget, rely too confidently on an equal number for the following year. For 72 rupees a patient can be housed, fed and treated for a full year, and from an invested capital of Rs. 2,000 a bed can be supported in perpetuity.

Permanently supported beds.
